ABOUT ME

After graduating in the UK, I came to China for a short trip and ended up staying. I now manage the Pudong campus of a kindergarten as Lead Teacher. At 34, I shifted careers and joined Le Wagon in Tokyo to study Data Science and AI. I kept learning on my own afterward, building GAIDI to detect AI-generated content and analyzing complex datasets like Olist. I've built leadership experience through the military and by leading an 8-person team to win a regional business challenge in Marseille.

SKILLS

Team management	Project Management	Marketing
Python	Adobe Photoshop	Adobe Premiere
MLL with Scikit-Learn	Matplotlib	Artificial Intelligence
Data Analytics with SQL	Deep Learning with TensorFlow Keras PyTorch	Google Cloud Platform

DATA/AI PROJECTS

Generated AI Data Identifier - GAIDI

https://huggingface.co/spaces/Roma-b/gaidi-space

Built a Streamlit-based web app that detects whether texts or images are AI-generated.

- Trained an SVM model on 63,000+ rows of AI/human text using NLP features (TF-IDF, readability, sentiment, redundancy).
- For images, implemented a CNN trained on datasets like CIFAKE.
- Deployed on Hugging Face Spaces after testing Docker, Google Cloud, and Render.

Challenge Olist

https://romaric1209.github.io/github-portfolio/portfolio-details-olist.html

Analyzed operational, financial, and customer data to identify profitability levers.

- Proposed excluding poorly rated sellers to reduce reputation costs and increase profit by over BRL 1.9M.
- Built sales forecasts using ARIMA/SARIMA (90% accuracy).
- Conducted sentiment analysis on customer reviews using a fine-tuned NLP model to identify drivers of satisfaction and churn.
